The answer should be Defender for Cloud. See below MS Doc:

<https://docs.microsoft.com/en-us/azure/defender-for-cloud/regulatory-compliance-dashboard>

You need to read the question better. It says "for azure services" therefore its not to manage your organization's compliance but rather how Azure services did on the audit reports. MS Defender for cloud is for managing your organization's compliance.

Answer is D (Microsoft Service Trust Portal)

Microsoft Defender for Cloud is about your Resources (subscription) while Microsoft Service Trust Portal is about general services (Azure).

Got this answers after analyzing from the public comments.

"Microsoft Service Trust Portal" is the answer.

<https://learn.microsoft.com/en-us/microsoft-365/compliance/get-started-with-service-trust-portal?view=o365-worldwide#accessing-the-service-trust-portal>

The Service Trust Portal is Microsoft's public site for publishing audit reports and other compliance-related information associated with Microsoft's cloud services. STP users can download audit reports produced by external auditors and gain insight from Microsoft-authored whitepapers that provide details on how Microsoft cloud services protect your data, and how you can manage cloud data security and compliance for your organization. To access some of the resources on the Service Trust Portal, you must log in as an authenticated user with your Microsoft cloud services account (Azure Active Directory organization account) and review and accept the Microsoft Non-Disclosure Agreement for Compliance Materials.

• the Microsoft Service Trust Portal (STP) provides audit reports for a variety of Microsoft services, including Azure. The STP is a central location where you can find information about the security, compliance, and privacy of Microsoft's cloud services. It includes a variety of resources, such as:

- Compliance reports and certifications:
- Service compliance information:
- Auditing and reporting:

The question seems to refer to general services, not yours in the cloud. IN that case D makes sense :<https://servicetrust.microsoft.com/>

? ? ? upvoted 6 times

? ? Kiwi28 2 years ago

you're right! "You can review audit reports for...wait for it....AZURE SERVICES..." not your subscription.
