Agree with your answer

👍 🔄 🚩 upvoted 1 times

🗄️ 👤 **Milimiliemilie** 2 years, 12 months ago

Agree. On your document it says "To view Azure and AWS costs together, you use 'management group' scopes in Azure."

👍 🔄 🚩 upvoted 6 times

🗄️ 👤 **EwoutBI** 1 year, 3 months ago

I think the listed answer is correct. Under Cost analysis > Cost by resource I do not have an option for Management Group.

👍 🔄 🚩 upvoted 2 times

🗄️ 👤 **Harry28731** 2 years, 11 months ago

No. Just try on Azure Portal under Cost Management. When I try to get the costs associated with my Tenant Root Group, i get this error message :

Resources not available

Resources are only available when selecting a subscription or resource group. Please change scope to view resources or try the Resource groups view.

So Straightforward, N Y Y

👍 🔄 🚩 upvoted 19 times

🗄️ 👤 **Harry28731** 2 years, 11 months ago

Sorry, tried again by creating a management group and it worked (after moving the subscription under it). So Y Y Y.

you can see filter options for resource groups, virtual machines etc under cost management, but no management group found in the filter options.

people thinking the first one is Y are either not understanding what they are reading in the doc or not reading further down enough

👍 🔄 🚩 upvoted 1 times

🗄️ 👤 **Genichiro** 2 months, 2 weeks ago

Answer is YYY.

Directly from; <https://learn.microsoft.com/en-us/azure/cost-management-billing/costs/quick-acm-cost-analysis>

"After you customize your view to meet your needs, you might want to save and share it with others. To share views with others:

Save the view on a subscription, resource group, MANAGEMENT group, or billing account.

Share a URL with view configuration details, which they can use on any scope they have access to.

Ping the view to an Azure portal dashboard. Pinning requires access to the same scope.

Download an image of the chart or summarized cost details in an Excel or CSV file.

Subscribe to scheduled alerts on a daily, weekly, or monthly basis.

All saved views are available from the All views list discussed previously."

I think people who are thinking the first one is Y, are misunderstanding the following phrase from the Doc:
Cost Management is available from within the Billing experience. It's also available from every subscription, resource group, and management group in the Azure portal.

You can access Cost Management from those places, but the graphs/figures you get are for Resources and Resource Groups and subscriptions

   upvoted 1 times

  **e3ddceb** 3 months, 2 weeks ago

Yes : Azure Cost Management allows you to view costs associated with management groups.

Yes : Azure Cost Management allows you to view costs associated with resource groups.

Yes : Azure Cost Management allows you to view the usage of VMs over a specified period, including the last three months.

It's Y/ Y/ Y

   upvoted 1 times

  **yidnekachew** 7 months ago

Management groups aren't included in cost details.

source: <https://learn.microsoft.com/en-us/azure/cost-management-billing/cost-management-billing-overview>

so the answer should be NYY

   upvoted 1 times

  **Yomzie** 7 months, 1 week ago

If only people are willing to do a lil' bit more research...

Cost Management is available from within the Billing experience. It's also available from every subscription, resource group, and management group in the Azure portal. The availability is to ensure everyone has full visibility into the costs they're responsible for, and also, to help optimize their workloads for maximum efficiency.

NYY. Had this exact question during my exam today 06/03/2024.

   upvoted 1 times

  **kaf_omic** 8 months, 1 week ago

For the first question: "Management groups aren't included in cost details", so the answer is NO.

<https://learn.microsoft.com/en-us/azure/cost-management-billing/costs/overview-cost-management#organize-and-allocate-costs>

  **Pkard** 11 months ago

Chat GPT says YYY

   upvoted 3 times

  **Oatsers** 8 months, 4 weeks ago

We don't care what ChatGPT says. It's not reliable and gets questions wrong very often. Stop using it.

   upvoted 6 times

  **msdagiya** 11 months, 1 week ago

cost mangement can be viewed at management group level

<https://learn.microsoft.com/en-us/azure/cost-management-billing/costs/overview-cost-management>

   upvoted 1 times

  **JatinJ** 12 months ago

Management groups also allow grouping subscriptions together, but offer a few key differences:
Management group access is inherited down to the subscriptions and resources.

Management groups can be layered into multiple levels and subscriptions can be placed at any level.

Management groups aren't included in cost details.

All historical costs are returned for management groups based on the subscriptions currently within that hierarchy. When a subscription moves, all historical cost moves.

Management groups are supported by Azure Policy and can have rules assigned to automate compliance reporting for your cost governance strategy.

  **clever97** 1 year ago

Todas verdaderas. La gestión de costos está disponible desde la experiencia de facturación. También está disponible en todas las suscripciones, grupos de recursos y grupos de administración de Azure Portal. Enlace:
