EXAM AZ-900 TOPIC 1 QUESTION 361 DISCUSSION

Actual exam question from Microsoft's AZ-900

Question #: 361

Topic #: 1

[\[All AZ-900 Questions\]](#)

HOTSPOT -

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

| Statements | Yes | No |
|--|-----------------------|-----------------------|
| With Azure Reservations, you pay less for virtual machines than with pay-as-you-go pricing. | <input type="radio"/> | <input type="radio"/> |
| Two Azure virtual machines that use the B2S size have the same monthly costs. | <input type="radio"/> | <input type="radio"/> |
| When an Azure virtual machine is stopped, you continue to pay storage costs for the virtual machine. | <input type="radio"/> | <input type="radio"/> |

YES , NO , YES Is certainly correct.

for second question, B2S VM are Burstable VM size and is ideal for workloads that do not need the full performance of the CPU continuously, like web servers, proof of concepts, small databases and development build environments. These workloads typically have burstable performance requirements.

For question 1: You will not necessarily pay less. It depends on how much you use. You pay a lower rate with a reservation. However, if your usage is very low, you'd pay less with pay-as-you-go.

Funny thing is, Box 1 does not consider variables and you have to answer that Reservations are cheaper (I could pay less in payg if it was a dev vm that I don't turn on that much), but Box 2 does consider variables such as the disks.

WRONG!

YNY is correct.

You continue to pay for storage costs of a VM as they are persistant virtual machines.

<https://techcommunity.microsoft.com/t5/itops-talk-blog/am-i-billed-for-an-azure-virtual-machine-if-it-s-shut-down/ba-p/2456669>

"While the VM is shut down, there is still a storage cost for the disk that is holding the virtual hard drive file, as well as any other data storage disks you may have created, as you are still consuming file storage."
