Answer:

Azure App Service >> Platform as a Service (PaaS)

>> Azure App Service is considered an excellent Platform as a Service (PaaS), offering an application platform for developers to build Web, mobile and API applications. Its offerings range from simple marketing and digital presence applications to scalable e-commerce solutions and hyper-scale, customizable applications

Azure Virtual machines >> Infrastructure as a Service (IaaS)

Microsoft Dynamics 365 >> Software as a Service (SaaS)

Typically, a SaaS provider opts to license applications to you as an on demand offering or as a subscription service. Popular examples are things like: Microsoft Dynamics CRM, Office 365 and Dropbox

dynamic 365 could be saas or paas depends on licensing model:

<https://dynamicsblog.intersys.pl/en/2021/10/22/modele-licencyjne-microsoft-dynamics-365-business-central-on-premise-vs-saas-vs-paas-vs-iaas/>

but here it should be saas in general

so i think it is correct
