Direct Access: You must access Compliance Manager through the Microsoft Purview compliance portal directly.  
Indirect Access: You can navigate from the Microsoft 365 Admin Center to the Microsoft Purview compliance portal, but you cannot configure the Admin Center to include Compliance Manager as an integrated feature.

The answer is correct as MS Learn shows:

The Microsoft 365 global administrator for your organization will likely be the first user to access Compliance Manager. We recommend the global admin sign in and set user permissions as outlined below when visiting Compliance Manager for the first time through the Microsoft Purview compliance portal

As announced both in-product (February 4, 2021) and via documentation, we will soon retire Compliance Manager (classic) from the Microsoft Service Trust Portal.

We recommend using Compliance Manager within the Microsoft 365 compliance center,
