Selected Answer: A

A is the answer.

<https://learn.microsoft.com/en-us/azure/cloud-shell/overview>

Azure Cloud Shell is an interactive, authenticated, browser-accessible shell for managing Azure resources. It provides the flexibility of choosing the shell experience that best suits the way you work, either Bash or PowerShell.

You can access Cloud Shell in three ways:

- Direct link: Open a browser to <https://shell.azure.com>.
- Azure portal: Select the Cloud Shell icon on the Azure portal
- Code samples: In Microsoft technical documentation and training resources, select the Try It button that appears with Azure CLI and Azure PowerShell code snippets
