Answer should be D , right?

👍 ↩️ 🚩 upvoted 6 times

🗄️ 👤 **zimzimzimma** 1 year, 4 months ago

It's definitely D. I use Azure for my own personal website with a pay-as-you-go subscription and I just signed into the portal and I clearly see the 'Cost Management + Billing | Cost Management' service.

👍 ↩️ 🚩 upvoted 3 times

🗄️ 👤 **Rayman33** 2 years, 10 months ago

Agreed

Do I need to enable Azure Cost Management and Billing?

No, Azure Cost Management is on by default for Microsoft Enterprise Agreement and Pay-As-You-Go customers.

🗄️ 👤 **lachrofe** Highly Voted 👍 5 years ago

"Cost Management includes all usage and purchases, including reservations and third-party offerings for Enterprise Agreement (EA) accounts. *****Microsoft Customer Agreement (MCA) accounts and individual subscriptions with pay-as-you-go rates only include usage from Azure and Marketplace services. Support and other costs are not included.***** Costs are estimated until an invoice is generated and do not factor in credits." <https://docs.microsoft.com/en-gb/azure/cost-management/understand-cost-mgt-data>

👍 ↩️ 🚩 upvoted 40 times

🗄️ 👤 **patje** 3 years, 3 months ago

So answer D, because pay-as-you-go is mentioned as a supported category, right ?

👍 ↩️ 🚩 upvoted 4 times

🗄️ 👤 **Shami1810** 3 years, 2 months ago

Cost Management includes all usage and purchases, including reservations and third-party offerings for Enterprise Agreement (EA) accounts. Microsoft Customer Agreement accounts and individual subscriptions with pay-as-you-go rates only include usage from Azure and Marketplace services. Support and other costs aren't included. Costs are estimated until an invoice is generated and don't factor in credits.

If you have a new subscription, you can't immediately use Cost Management features. It might take up to 48 hours before you can use all Cost Management features.

It's D, please refer this

🗄️ 👤 **Genichiro** Most Recent 🕒 2 months, 2 weeks ago

The answer is either C or D;

To use Azure Cost Management, you'll need the following:

Azure Subscription: You must have an active Azure subscription. This can be a pay-as-you-go account, an enterprise agreement, or any other type of Azure subscription.

👍 ↩️ 🚩 upvoted 1 times

🗄️ 👤 **Kholio86** 3 months, 2 weeks ago

Answer should be "D", by the way below link already shared in the same question!!!

<https://docs.microsoft.com/en-gb/azure/cost-management/overview-cost-mgt>

Cost Management is available from within the Billing experience. It's also available from every subscription, resource group, and management group in the Azure portal.

🗄️ 👤 **Van09181996** 1 year, 4 months ago

Selected Answer: D

this is pay as you go

👍 ↩️ 🚩 upvoted 4 times

🗄️ 👤 **zimzimzimma** 1 year, 4 months ago

It's definitely D. I use Azure for my own personal website with a pay-as-you-go subscription and I just signed into the portal and I clearly see the 'Cost Management + Billing | Cost Management' service appearing for my subscription.

I do not have any enterprise agreement whatsoever because I'm just an individual with limited budget, not an organization.

🗄️ 👤 **rafacop** 1 year, 6 months ago

Selected Answer: D

pay as you go should be the correct answer

pay as you go should be the correct answer.

   upvoted 2 times

  **Sa_Msa** 1 year, 6 months ago

Selected Answer: D

According to Microsoft, Azure Cost Management is enabled by default for Enterprise Agreement and Pay-As-You-Go customers, so there is no need to enable it separately. So, both C and D should be correct here

Selected Answer: D

Question is makes no sense, this has dual answer.
Can go with both EA & Pay as you go.

Do I need to enable Microsoft Cost Management?

No, Microsoft Cost Management is on by default for Microsoft Enterprise Agreement and Pay-As-You-Go customers.

Selected Answer: C

Answer is C

Azure portal supports the following type of billing accounts:

Microsoft Online Services Program

Enterprise Agreement

Microsoft Customer Agreement

Microsoft Partner Agreement

   upvoted 2 times

  **azirila** 1 year, 9 months ago

For users with Azure Enterprise Agreements, users' level of access to Cost Management data is determined by a combination of permissions granted in the Azure portal and Enterprise portal (EA). For users with other types of Azure accounts, you can more easily define the user's level of access to Cost Management data by using Azure role-based access control (Azure RBAC). This article explains how to assign access to Cost Management data. After the combination of permissions is assigned, the users can view data in Cost Management based on their scope of access and the scope they select in the Azure portal.

How do I enable cost management in Azure?

Enable access to costs in the Azure portal

To enable an option in the Azure portal: Sign in to the Azure portal at <https://portal.azure.com> with an enterprise administrator account. Select the Cost Management + Billing menu item. Select Billing scopes to view a list of available billing scopes and billing accounts

   upvoted 1 times

  **kazan** 1 year, 9 months ago

Selected Answer: D

Azure Cost Management is a free solution offered to Azure cloud customers via the Azure portal.

  **jmandc03** 1 year, 10 months ago

"To enable Cost Management in the Azure portal, you must have confirmed customer acceptance of the Microsoft Customer Agreement (on behalf of the customer) and transitioned the customer to the Azure Plan."

<https://learn.microsoft.com/en-us/azure/cost-management-billing/costs/get-started-partners>

   upvoted 2 times

  **gabrielmsantos** 1 year, 10 months ago

Selected Answer: D

This answer is not correct. The solution should be D (pay-as-you-go). It also supports EA. The difference is in the kind of data managed in the Cost Management tool.

"Cost Management includes all usage and purchases, including reservations and third-party offerings for Enterprise Agreement (EA) accounts. Microsoft Customer Agreement accounts and individual subscriptions with pay-as-you-go rates only include usage from Azure and Marketplace services. Support and other costs aren't included."
