EXAM AZ-900 TOPIC 1 QUESTION 113 DISCUSSION

Actual exam question from Microsoft's AZ-900

Question #: 113

Topic #: 1

[\[All AZ-900 Questions\]](#)

Your company plans to start using Azure and will migrate all its network resources to Azure.  
You need to start the planning process by exploring Azure.  
What should you create first?

- A. a subscription
- B. a resource group
- C. a virtual network
- D. a management group

A. Subscription

Keep it simple, you need to use something, have a subscription first like any other apps did.

A. a subscription would be the first thing you should create when starting to explore Azure.

Once you have created a subscription, you can then start creating other resources such as resource groups, virtual networks, and management groups. These resources can be used to organize and manage your Azure resources as you start to migrate your network resources to Azure.
