## EXAM AZ-900 TOPIC 1 QUESTION 114 DISCUSSION

Actual exam question from Microsoft's AZ-900

Question #: 114

Topic #: 1

[\[All AZ-900 Questions\]](#)

HOTSPOT -

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

### Answer Area

Statements	Yes	No
All the Azure resources deployed to a resource group must use the same Azure region.	<input type="radio"/>	<input type="radio"/>
If you assign a tag to a resource group, all the Azure resources in that resource group are assigned to the same tag.	<input type="radio"/>	<input type="radio"/>
If you assign permissions for a user to manage a resource group, the user can manage all the Azure resources in that resource group.	<input type="radio"/>	<input type="radio"/>

Its N,N,Y  
b. When \*enabled\*, tag inheritance applies resource group and subscription tags to child resource usage records. You don't have to tag every resource or rely on resources that emit usage to have their own tags.  
The keyword is enabled, it is not enabled by default.  
<https://learn.microsoft.com/en-us/azure/cost-management-billing/costs/enable-tag-inheritance>  
Hope it helps.

Box1 : NO  
The resources in a resource group can be located in different regions than the resource group.  
  
Box2: No

You can apply tags to a resource group. The resources in the resource group don't inherit those tags.
