EXAM AZ-900 TOPIC 1 QUESTION 364 DISCUSSION

Actual exam question from Microsoft's AZ-900

Question #: 364

Topic #: 1

[\[All AZ-900 Questions\]](#)

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has an Azure subscription that contains the following unused resources:

- ⇒ 20 user accounts in Azure Active Directory (Azure AD)
- ⇒ Five groups in Azure AD
- ⇒ 10 public IP addresses
- ⇒ 10 network interfaces

You need to reduce the Azure costs for the company.

Solution: You remove the unused user accounts.

Does this meet the goal?

A. Yes

B. No

Azure AD Free, doesn't cost anything

   upvoted 14 times

  **rgalfaro** 4 years, 10 months ago

Not sure if I understand it correctly, but it looks like Premium versions of Azure AD are charged per user:

<https://azure.microsoft.com/en-in/pricing/details/active-directory/>

Now, the question does not say what kind of AD subscription we are talking about, so I guess free, so answer would be B. But if we are talking about P1 or P2, answer should be A.

   upvoted 4 times

  **whoru** 3 years, 10 months ago

They're using AD groups which are only available in premium. So the answer is A.

   upvoted 3 times

  **mikl** 3 years, 9 months ago

also if the users are unused? I guess - with no license attached?

   upvoted 1 times

  **Fraz** Highly Voted  4 years, 9 months ago

I think the clue is in the fact that the accounts are unused, so the answer is B.

   upvoted 8 times

  **Seppoin** 4 years ago

Yes. Cost is for Monthly Active Users. Unused = No Cost

   upvoted 4 times

  **Topically** 3 years, 11 months ago

I think this applies only to external users.

This question is part of a series of questions was this the only question or did the series of questions come out?

   upvoted 1 times

  **Marcal** 1 year, 5 months ago

Yes, removing the unused network interfaces can help reduce Azure costs for the company. Network interfaces are charged based on the number of hours they exist, regardless of their association with a virtual machine. So removing unused network interfaces can help reduce costs.

So the correct answer to your question is A. Yes.

   upvoted 1 times

  **zelck** 1 year, 9 months ago

Selected Answer: B

B is the answer.

  **lovecloud2** 2 years, 10 months ago

3_ questions in a row are messed up. All have \Rightarrow 10 public IP addresses so they should be YES lol

   upvoted 1 times

  **[Removed]** 2 years, 7 months ago

read the questions carefully. They ask if the solution like 'removing unused accounts' meets the goal of reducing costs to the firm.

   upvoted 2 times

  **[Removed]** 2 years, 7 months ago
meant to say "removing unused user accounts"

   upvoted 1 times

  **Kemzyo** 3 years, 4 months ago
no it does not

   upvoted 2 times

  **KPexams** 3 years, 4 months ago

Answer is No. "When a user is deleted, any licenses consumed by the user are made available for other users."

Only free AD license has no fees per user. The rest is charged:
Basic 1\$ per user per month, Premium P1 6\$ per user per month, Premium P2 9\$ per user per month.

The customer would save money by removing the unused AD accounts.

⇒ 20 user accounts in Azure Active Directory (Azure AD)

⇒ Five groups in Azure AD

They are using a paid version of AD. The use of groups is only available in P1 and P2 at \$6 per user, per month.

Azure AD free provide management of users and groups

Azure AD P1 provide support of dynamic groups

   upvoted 1 times

  **Gwak** 3 years, 10 months ago

I guess A. They just said Azure AD. not mentioned P1 P2 or OFFICE 365 APPS

   upvoted 2 times

  **PosPunk** 4 years, 1 month ago

You delete the account but you already have the license, don't you?

   upvoted 1 times

  **Enoll** 4 years ago

Yes but it doesn't mention a license here - just user account. If you have just an account that doesn't have a license, you can keep it at no cost, deleting it will not save money (because it is just an account, not a license). If it was delete unused license, then it will be YES, this will save money.

   upvoted 1 times

  **carecajo** 4 years, 1 month ago

B - answer should NO

Customers are not charged for a MAU's subsequent authentications or for storing inactive users within that calendar month.

   upvoted 4 times

  **gelato** 4 years, 4 months ago

Based on the discussion the question should have stated what's in unused AD user accounts.

   upvoted 1 times

  **Rooks** 4 years, 6 months ago

As long as there's no license assignment to those users then there's no cost with those users ..

upvoted 5 times
