Selected Answer: D

"Azure Reserved Instances are an Azure pricing plan that can help you reduce cloud costs. It offers discounts in return to a commitment to use Azure offerings for a duration of one or three years."
Longest 3 years so answer is D.

Azure Reservations help you save money by committing to one-year or three-year plans for multiple products. Committing allows you to get a discount on the resources you use. Reservations can significantly reduce your resource costs by up to 72% from pay-as-you-go prices. Reservations provide a billing discount and don't affect the runtime state of your resources. After you purchase a reservation, the discount automatically applies to matching resources.
