HOTSPOT

-

You need to identify which blades in the Azure portal must be used to perform the following tasks:

- View security recommendations.
- Monitor the health of Azure services.

Which blade should you identify for each task? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer Area**

Monitor the health of Azure services:

just passed but not to my satisfaction some questions not on here so didn't study but some questions in here I had not remembered the documentation. Learn:

- vm Scale Sets can the number increase or decrease automatically
  - must a win 11 machine be domain joined to login Entra. I thought registered was enough but i guess not
  - Can you join an Android to entra (i believe only Windows machines) answered No
- got 100% on Cloud concepts

did badly on „architecture and services“ there was a question not on here about virtualisation and got that one wrong but no answers made sense. Also could not remember if Storage premium for Azure Files can have Cool Tier. Learn the storage stuff well that's where I did not do well

did well on Azure Mgmt and Governance

   upvoted 1 times  **NoursBear** 1 week, 5 days ago

learn this

<https://www.linkedin.com/pulse/choosing-best-azure-storage-account-your-data-needs-gregor-wohlfarther-urnpf#:~:text=Cool%20access%20tier%20is%20only,backup%20or%20disaster%20recovery%20data>

Cool Access only for standard storage for Azure Files.

<https://learn.microsoft.com/en-us/azure/virtual-machine-scale-sets/virtual-machine-scale-sets-autoscale-portal#:~:text=When%20you%20create%20a%20scale,the%20number%20of%20VM%20instances.>

above 2 had wrong

can you set cool tier at storage account level? was another one
