### EXAM AZ-900 TOPIC 1 QUESTION 314 DISCUSSION

Actual exam question from Microsoft's AZ-900

Question #: 314

Topic #: 1

[\[All AZ-900 Questions\]](#)

Your company plans to request an architectural review of an Azure environment from Microsoft. The company currently has a Basic support plan. You need to recommend a new support plan for the company. The solution must minimize costs. Which support plan should you recommend?

- A. Premier
- B. Developer
- C. Professional Direct
- D. Standard

Only with Premier it's possible to "request an architectural review of an Azure environment from Microsoft." and this is what's being asked.

<https://azure.microsoft.com/en-us/support/plans/>

Premier support plan --> Architecture Support

"Customer specific architectural support such as design reviews, performance tuning, configuration and implementation assistance delivered by Microsoft Azure technical specialists."

Professional Direct support plan it's not enough since it only provides "Architectural guidance based on best practice delivered by ProDirect Delivery Manager"

Developer and Standard are not valid options.

I don't see premier in the support plans anymore. Was it removed?

   upvoted 8 times

  **Stevo\_WPB1** 4 years, 5 months ago

Premier is not included on that page anymore and professional direct is the top tier. has the premier plan now obsolete?

"If you're looking for a comprehensive, organization-wide support plan that includes Azure, Microsoft 365, and Dynamics 365, explore enterprise support."

It has been moved to this page-

<https://www.microsoft.com/en-us/msservices/premier-support>

Also please check -

As of July 1, 2021, Microsoft will no longer enter into Premier Support agreements for new customers.

Beginning July 1, 2022, Microsoft will no longer offer Premier Support agreements for renewing customers.

Yes premiere is the most expensive but:

Basic has no architecture support

Developer has only general guidance

Standard has only general guidance

Professional has Architectural guidance based on best practice delivered by ProDirect Delivery Manager

only premiere has architectural support such as design reviews

   upvoted 31 times

  **exam\_tomorrow\_123** 4 years, 4 months ago

Dev & standard do have guidance

   upvoted 2 times

  **Gbase** 3 years, 2 months ago

can you point me to the Microsoft or Azure page where it specifically states that premiere has architectural support such as design reviews ?

as design reviews :

The answer is C.

To receive an architectural review of an Azure environment from Microsoft, you would need either the Professional Direct or Unified support plan. Both of these plans provide detailed architectural guidance and reviews:

Professional Direct Support Plan: Offers in-depth architectural guidance and access to a pool of ProDirect delivery managers<sup>1</sup>.

Unified Support Plan: Provides comprehensive, personalized architectural guidance, including design reviews and optimization services<sup>2</sup>.

These plans are designed to support business-critical environments and provide proactive services to help optimize your Azure deployments.

**Selected Answer: D**

Correct Answer is D- Standard

   upvoted 5 times

  **Christian\_garcia\_martin** 3 months, 2 weeks ago

is professional direct, currently azure does not have premier plan , and is professional direct the only one cover reviews

   upvoted 1 times

  **siculoct** 4 months, 2 weeks ago

Professional Direct

It has Architectural guidance based on best practices delivered by the ProDirect Delivery Manager

   upvoted 2 times

  **siculoct** 4 months, 4 weeks ago

It's C.

To request an architectural review of your Azure environment from Microsoft while minimizing costs, you should consider leveraging the Azure Professional Direct (ProDirect) Support Plan

Yes, the Developer Support Plan does provide some support for architectural considerations, but it's essential to understand its limitations

   upvoted 2 times

**Selected Answer: B**

Microsoft Copilot: B. Developer Most Voted

The Developer support plan is the most cost-effective option that includes architectural support<sup>1</sup>. It costs \$29 per month and provides general architectural guidance during business hours<sup>1</sup>. However, please note that the support is available by email only during business hours<sup>1</sup>. If the company requires more comprehensive support, they may need to consider a higher-tier plan. But for minimizing costs and getting architectural support, the Developer plan is the most suitable<sup>1</sup>.

  **gabrov** 7 months, 4 weeks ago

B developers support it and is the cheaper

   upvoted 2 times

  **secugeek** 8 months ago

Both Premier and Professional Direct plans provide architectural review. The Premier support plan is not visible or available for purchase directly through the Azure portal because it is a specialized support offering provided by Microsoft for organizations with complex environments and specific requirements. In general, the Premier support plan tends to be more expensive than the Professional Direct plan. So, Professional Direct would be the CORRECT answer.

   upvoted 1 times

  **Pratheep911** 10 months, 1 week ago

Professional Direct- 'C' is the right answer - Guidance from a pool of ProDirect delivery managers

   upvoted 2 times

  **gfalconx** 11 months, 1 week ago

professional direct support plan, and the answer is from here that the best option to minimize cost and get architectural review is the

premier doesnt exist anymore and the customer is from basic thats looking to upgrade but minimal cost so shouldnt be the answer B? as Professional direct is 1k usd per month?

   upvoted 1 times

  **gonlafer** 1 year ago

**Selected Answer: B**

ARCHITECTURE SUPPORT: General guidance

COST: USD29 per month

   upvoted 1 times

  **Vitos25** 1 year, 1 month ago

The premier option I think should be removed or the question should be modified.

This is the main reason why:

If you are NOT working with a Microsoft Gold Partner, your Azure Subscription includes the BASIC Support Plan. You have the possibility to upgrade your support plan to the "Developer" (\$29/month), the "Standard" (\$100/month) or the "Premier" (\$1000/month) support plan at an additional monthly cost

Therefore, according to the same question, the correct answer should be Developer "B"
