Selected Answer: A

Answer is A. Application data is correct. In the SaaS model, the customer typically provides the data that they input into and process using the application. This is the primary contribution from the customer side.

  **Bishtu** 3 years, 1 month ago

Sorry misunderstood question it's actually what customer has to give .

   upvoted 5 times

  **Eldarion** 3 years, 1 month ago

In saas, the user has the responsibility only to insert/configure data

Why not Application ?

   upvoted 1 times

  **fabiosilpereira** 3 years ago

Porque se você tiver que inserir um aplicativo não seria mais SaaS. e sim, PaaS. e-mail e OneDrive são exemplos de SaaS
