EXAM AZ-900 TOPIC 1 QUESTION 207 DISCUSSION

Actual exam question from Microsoft's AZ-900

Question #: 207

Topic #: 1

[All AZ-900 Questions]

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have an Azure environment. You need to create a new Azure virtual machine from a tablet that runs the Android operating system.

Solution: You use the PowerApps portal.

Does this meet the goal?

- A. Yes
- B. No

	Ali000 3 years, 7 months ago is it a portal? if yes should be able to run on the browser, am I right?
	☐ ♣ Min_Thu 3 years, 7 months ago

powerapp portal and azure portal are different. the question is using powerapp portal to create the new vm. we cannot create the vm by using powerapp portal.

PowerApps Portals allow organizations to create websites which can be shared with users external to their organization either anonymously or through the login provider of their choice like LinkedIn, Microsoft Account, other commercial login providers.
