WRONG - B IS CORRECT ..An Azure Policy initiative is a collection of Azure Policy definitions, or rules, that are grouped together towards a specific goal or purpose. Azure initiatives simplify management of your policies by grouping a set of policies together, logically, as a single item.

👍 ↩ 🚩 **upvoted 9 times**

⊟ 👤 **xian05** 3 years, 1 month ago

Your definition is for option A: a collection of (azure) policy definitions.

👍 ↩ 🚩 **upvoted 10 times**

⊟ 👤 **zellck** `Most Recent ⊙` 1 year, 9 months ago

"collect of policy definitions" is the answer.

https://learn.microsoft.com/en-us/azure/governance/policy/overview#initiative-definition
An initiative definition is a collection of policy definitions that are tailored toward achieving a singular overarching goal. Initiative definitions simplify managing and assigning policy definitions. They simplify by grouping a set of policies as one single item. For example, you could create an initiative titled Enable Monitoring in Microsoft Defender for Cloud, with a goal to monitor all the available security recommendations in your Microsoft Defender for Cloud instance.

⊟ 👤 **zellck** 1 year, 9 months ago

https://learn.microsoft.com/en-us/training/modules/describe-features-tools-azure-for-governance-compliance/3-describe-purpose-of-azure-policy
An Azure Policy initiative is a way of grouping related policies together. The initiative definition contains all of the policy definitions to help track your compliance state for a larger goal.

For example, Azure Policy includes an initiative named Enable Monitoring in Azure Security Center. Its goal is to monitor all available security recommendations for all Azure resource types in Azure Security Center.

Policy definition is the conditions which you want controlled. ... Policy assignment is the scope of what the policy definition can take effect around. Scope of assignment can be assigned to a individual, resource, resource group or management group. Policy assignments are inherited by all child resources.
